

ROSHNI CHOUDHARY

AI/ML & Python Developer

Sanawad, Madhya Pradesh, India • roshnichoudhary93@gmail.com • 7247523149 • [LinkedIn](#) • [GitHub](#)

EDUCATION

Bachelor of Technology in AIML

VIT University, Bhopal

2023 – 2027

TECHNICAL SKILLS

Languages & Frameworks: Python, TensorFlow, Keras, Scikit-learn, OpenCV, Flask

Web & Full-Stack: React.js, Node.js, HTML, CSS, JavaScript, MongoDB

ML/DL Concepts: CNNs, SVM, kNN, Decision Trees, Feature Engineering, Model Deployment

PROJECTS

Accident Detection System | Personal Project

Tech Stack: Python, TensorFlow/Keras, OpenCV, Flask, HTML, CSS, JavaScript

- Developed a computer vision-based accident detection system to identify vehicle accidents from video footage.
- Trained and utilized a deep learning model to classify accident and non-accident scenarios.
- Implemented real-time/video-based prediction using OpenCV and integrated the trained model with a Flask web application.
- Designed a web interface allowing users to upload accident videos and obtain prediction results.
- Packaged the application for practical use and tested the system with real-world video inputs.

GitHub: github.com/Roshni120904/accident-detection-system

Multi-Modal Emotion-Aware Conversational Assistant | Group Project

- Built a real-time conversational assistant with facial/voice emotion recognition, using the Gemini LLM for context-aware responses, deployed via Streamlit.

PredictiX – AI-Based Disease Prediction System | Group Project

- Built a full-stack healthcare platform using SVM and Decision Tree models to predict Diabetes and Heart Disease, with a React/Node.js/MongoDB backend.

Cardiac Arrhythmia Detection of ECG Signals | Group Project

- Built an SVM/kNN/CNN-based classification system on the MIT-BIH Arrhythmia Database to detect Atrial Fibrillation and ectopic beats.

INTERNSHIP

AICTE Internship on AI: Transformative Learning with TechSaksham

Edunet Foundation • December 2024

- Completed a project-based internship building prototypes to solve real-world challenges using AI.
- Earned certification jointly issued by Microsoft, SAP, AICTE, and Edunet Foundation.

Advance Software Engineering and Development Internship

MP Online • 20 May – 30 July 2025

- Gained hands-on exposure to advanced software engineering and development practices under a structured mentorship program.
- Applied software development fundamentals to build and refine practical, project-based solutions.

LICENSES & CERTIFICATES

- AICTE – Internship on AI: Transformative Learning with TechSaksham, Edunet Foundation (Mar 2025)
- Cloud Computing, IITS – 12-week program (Jan–Apr 2025)
- GenAI Using IBM Watsonx, IBM Career Education Program (Jun 2025)
- Advanced SQL for Technical Interviews, Bosscoder Academy (Feb 2025)
